Subject: Re: Motion for an EP Resolution on Biotechnology: Prospects and Challenges for Agriculture in Europe (2006/2005 (INI))

Dear Ms de Mornay Comrie

Thank you for your email dated 6th December 2006, sent to Jeffrey Titford MEP, regarding the EU's recent interest in expanding the use of GM technology. Mr Titford has asked me to reply on his behalf.

Mr Titford is a long term opponent of GM crops and will be voting against any EU plan to increase their propagation in Europe. He has written several items on this subject in his regular columns for the British farming publication, Farmers Guide, in recent years. You can access these columns on his website at www.jeffreytitfordmep.co.uk.

Rest assured, that he will continue to vigorously oppose the use of GM technology, which he regards as unproven and a great threat to the natural environment.

Best wishes.

Stuart Gulleford
Political Advisor to Jeffrey Titford MEP
